Vinotag compatible : Yes
Wifi connection : yes

Product description

This wine cellar is designed to simplify your setup and showcase your bottles. **Specifically designed for an under-counter furniture niche and seamless alignment with 72 cm doors**, it ensures aesthetic continuity and perfect integration into your kitchen. Its self-ventilation system eliminates the need for a **ventilation system** beneath the cellar, avoiding the requirement for plinth aeration.

In terms of design, the **adjustable lighting** offers a truly customizable experience: choose from three refined tones (warm white, cool white, and amber) and set the intensity to 25%, 50%, 75%, or 100%, depending on the desired ambiance.

Additionally, **telescopic rail** shelves provide smooth and secure access, a **reversible door** offers flexible installation, and **smart connectivity** allows you to remotely control temperature, lighting, and alarms.

This is far more than just a wine cellar: it is the perfect blend of technology, comfort, and elegance, ensuring your wines are stored and displayed to meet your highest standards.

NEW FORMAT

Designed for built-under installation in a 72 cm lineup without a ventilation grille

REMOTE CONTROL

Thanks to a wifi connection manage remotely temperature and lighting

FRONT VENTILATION SYSTEM

Easy installation no longer requiring high and low column ventilation

DIMMABLE LED LIGHTING
